

LOCAL AND GENERAL.

Marshal's sale notice elsewhere.

Several By Authority notices in this issue.

The Paradise of the Pacific for July is issued.

Bathing at Waikiki continues as popular as ever.

The Zealandia is due from San Francisco to day.

L. Jas. Aylett has been appointed Deputy Tax Assessor for Koolaula, Oahu.

The salary of the Government Dispenser has been raised from \$75 to \$85 per month.

The Halemano ranch, Wailua, Oahu, is for sale. For particulars inquire of Chas. L. Carter, Honolulu.

Rev. J. Mortimer Silver, of Kohala, who took a trip to the Colonies some months ago, returned by the Alameda.

The Australians en route to the Coast appeared to be enjoying themselves taking in sights Wednesday afternoon.

A number of flags were flying over the city Thursday in honor of the twenty-second anniversary of the Chinese Emperor.

One of the Hawaiians who returned by the steamship Alameda from Malietoa's kingdom brought a Samoan wife with him.

Mr. M. McInerney is exhibiting in a window of his store a water color drawing, made by Mr. C. B. Ripley of Mr. W. O. Smith's residence.

The Honolulu Sugar Co. will hold its regular annual meeting Wednesday, August 12, at C. Brewer & Co.'s office for the election of officers.

Wednesday evening Mr. and Mrs. Walter Hill celebrated their crystal wedding. Nearly fifty friends assembled to do honor to the occasion.

Dr. Lutz, one of the members of the Examining Board of Physicians, reported a case of diphtheria on the Plains to the Board of Health yesterday.

The two observatories have been completed for some time for the two astronomers who came here to make some special observations in astronomy.

Mrs. James Campbell has had a new pew built at Kawaiahae Church for herself and family. Mrs. C. occupied it for the first time last Sunday morning.

Has the barefooted chap left the country or has he become weary of his fruitless attempts at robbing? It is nearly his periodical time to make another attempt.

The members of the Kawaiahae Church met one day last week and appointed a committee to apply to the Minister of Interior for a charter of incorporation.

The honorary diplomas and certificates just issued by the Board of Education are very handsome in design, and prettily as well as neatly filled in by Viggo Jacobsen.

Some of the followers of Wilcox, of revolutionary fame, celebrated the anniversary of that misadventure attempt Thursday by somewhat frequent drinking to the success of the next.

The mail from the Post Office for the Australia consisted of 4,753 letters and 2,058 papers. This does not include the large number of letters that was put aboard after the office hour.

Charles L. Hopkins has been appointed by the Cabinet and Supreme Court as District Justice for Honolulu district, also acting Police Justice of the port of Honolulu during the absence of W. Foster, Esq.

Work has been commenced on the artesian wells at Waikiki on the plot of ground given by Her Majesty the Queen Dowager. The wells will have to be put down pretty deep to avoid having sea instead of fresh water.

The new steam fire engine for Honolulu Engine Co. No. 1, has arrived per bark Ceylon. The engine will be housed with fitting ceremony as soon as turned over to the Department by the Union Iron Works Co., who will put it in shape for duty.

Some natives while digging near a cave at Kahuku, on this island, the other day, found a fish hook and an uluakaka or bowing ball (of stone). The hook is made from human bone, claimed to be either that of a high born ali or a celebrated warrior.

There was simply a throng of people present at the sailing of the steamer Tuesday noon. Legs were twined almost without number around some of the passengers. Some of the tardy ones leaving the vessel had to clamber over the side, causing a few smiles at their expense.

Tourists who visit these Islands should secure copies of the Tourist's Guide. This publication is one of the most valuable souvenirs in the way of information and description of the Islands. The WEEKLY GAZETTE, is another, and in fact the largest paper published in Honolulu, that gives complete news of the Kingdom. This week's issue is especially interesting to send away. Both can be had at GAZETTE office or of the news stands.

LOCAL AND GENERAL.

Official letter list for July.

The August number of the Anglican Church Chronicle is out.

Numerous flags of diverse colors were floating to the breeze Friday.

Many business houses were closed in the city Friday in honor of the day.

Drs. Brodie & Foote have a card as to office hours in this morning's paper.

Artist Cogswell is making an oil painting of Her Majesty Queen Liliuokalani.

The C. Brewer & Co.'s new building on Fort street is nearly ready for occupancy.

Steamer Claudine brought from Maui 145 passengers and 707 packages of freight.

Read the Hawaiian Hardware's column of entertaining discourse on the art of cooking to perfection, in its application to health.

Mr. John T. Dare, who was attorney-general of this kingdom for a few months in 1886, has recently been appointed deputy-collector at San Francisco.

The sidewalk by the corner of King Bro.'s store is in a bad condition, and should be fixed, also the crossing of Fort and Hotel streets is in need of repairs.

Mr. Max Lohde, instructor at the Gymnasium, has been granted a two weeks' leave of absence and will spend his vacation at Hanalei, beyond Diamond Head.

The Portuguese Sunday school held a picnic at Remond Grove Saturday. About seventy-five went down, a train having been placed at their disposal by Mr. B. F. Dillingham.

The town had the appearance somewhat of a funeral on Friday afternoon, after the departure of the S. S. Monowai, very little business being done and few people seen on the streets.

Probably the finest portrait of Queen Liliuokalani in existence, is that now on exhibition in the show window of McInerney's store. It was executed in London, and is the property of Hon. S. M. Damon.

The death of Mr. R. R. Purvis, at Java, is announced in another column. Mr. P. was a resident of Kauai for some six or seven years, and was the father of Mr. R. W. T. Purvis, of Lihue, and of Mrs. E. W. Holdsworth of this city.

Several prominent native Hawaiians commemorated Restoration Day by holding a meeting at the Kaama-kapi church on Friday morning. A goodly number was present, several speakers giving a few remarks appropriate to the occasion.

Through the intercession of the New York World, the Samosans, or rather those left of the number engaged in New York, were released from their contracts, sent across the continent free by the railroads and according to the S. F. Examiner sail on the Monowai free of charge at the request of Mr. Spreckels.

The machinery for boring the artesian well for the Government at Waikiki has been removed from the lot donated by the Queen Dowager to land owned by Her Majesty Queen Liliuokalani. The machinery had been put up before the deed had been signed by the former, when she wanted the right of a four-inch pipe from the ten-inch well. The latter was willing to accept a one-inch pipe. Hence the removal of machinery.

A fire started in a two-story building beside Jos. Finkler's meat market on Nuuanu street at about 9:30 o'clock Tuesday evening. The building is used by some Chinamen. Just a minute or two before the fire broke out in the roof, Mr. Louis Toussaint, Captain Fire Police, captured a Chinaman running from the building with a trunk on his back, which looked very much as if John knew there was going to be a blaze. The fire was soon put out.

MAUI NOTES.

A Portuguese boy, about five years old, was caught by the foot in the rollers at Huulo Mill on Friday, July 31, and was crushed to death. His body, with the exception of his head, was crushed to a jelly before the mill could be stopped. They were not grinding at the time, but were making some repairs in the machinery.

A report has reached us, from Lahaina, that while a party were practicing target shooting on the shore at Olawala, a stray shot struck a man on the steamer Iwalani and killed him. From the account, it would appear to have been purely accidental.

A party of ladies and gentlemen, mostly school teachers, have started off on a fortnight's vacation excursion through the Haleakala crater, to Kaupo and Hana, intending to return through the romantic forest and mountain scenery lying between Hana and Haiku, known as the "Switzerland of Hawaii."

Mr. H. Center on Friday entertained Her Majesty and party to a grand luau at Spreckelsville.

A very large sale of fine horses takes place soon at Wailuku, being the stock owned by John Richardson.

OUR SAN FRANCISCO LETTER.

Per S. S. Monowai, San Francisco, July 24, 1891.

(From our special correspondent.)

Sugar.

New York, July 24th, Cuban centrals 96 degs. 341-100c.; granulated 4 1/2 cents.

The local market remains steady and unchanged. While the importations are small, the Western Sugar Refining Company is well supplied with sugar and will easily carry over the coming season. The trade feature of the past fortnight has been the importation of 493 sacks of German refined beet sugar, which came by way of New Orleans and the Texas & Pacific railroad to Fantana & Co., one of the largest fruit canning houses on the Coast. They say that they paid less for it delivered here than the ruling local prices, and propose to keep on importing while such conditions last.

LIKE COALS TO NEWCASTLE.

About 300 tons of sugar have arrived here from British Columbia during the past week and bonded for shipment to Honolulu. It is now stored on the Oceanic dock awaiting the departure of the next steamer. This same sugar obtained a rebate from the government when it left here several months ago in the rush to get foreign sugar out and free Hawaiian sugar in before the effect of the McKinley bill, and its return is mainly due to the recent compact between the Victoria refineries and the Western refining combination of this city. By that compact a division of territory has been effected, the northern limit of the United States being the boundary line.

A dispatch from Washington dated the 18th says: The Commissioner of Internal Revenue has prepared a statement of the probable production of sugar during the current fiscal year, of which the following is a summary: Number of producers of sugar from cane, 730; from beets, 7; from sorghum, 3; from maple sap, 3,322; total, 4,462. Estimate of the amount of sugar produced: Cane sugar, 593,000,000 pounds; beet sugar, 29,210,000 pounds; sorghum, 2,500,000 pounds; maple sugar, 8,000,000 pounds; total 533,710,000 pounds.

It is stated that a contract by which the principal glucose works of this country has gone into the hands of an English syndicate.

The Chilean Troubles.

There is little news to report regarding the situation in Chile. Reports that have come to hand during the past ten days have been very conflicting, and it is now declared that some of the fiercest and effective combats between the contestants that have been so vividly described in the dispatches from that country never occurred. The latest news is that the insurgents are steadily advancing into Balmaceda's territory and that in a naval battle off Quilombo the Balmaceda fleet was worsted by the cruiser Magellanes. The insurgents are said to be determined to fight their way to Valparaiso.

On June 28th two government cruisers aided by land forces captured the insurgent town of Port Corral. They held possession about two hours and were then driven out by the insurgents. The \$3,000,000 currency recently issued by Balmaceda at par has now been declared worthless and thirty cents on the dollar, and a panic is the result. The Examiner's correspondent telegraphs that the armies of both sides are starving and predicts that the war will not last over sixty days.

A fight is reported to have taken place at Huasco, in which 200 were killed. Santiago, Chile, has been visited by the severest fire since London in South America. The loss was \$2,000,000.

The Mysterious Lake.

The mystery surrounding the sudden rise of the lake in the Colorado desert has finally been settled by the discovery that the water comes from the Colorado river. An immense body of water is flowing into the lake, and a gentleman who has just returned from the scene says that if the channel is cut a little deeper the water from the Gulf of California will find an entry into the desert. He reports four other breaks from the Colorado, and it is now believed that the filling in of the lake is not only permanent but that it may become an arm of the Gulf of California.

San Francisco News.

The deficit in the city's finances grows apace. The discrepancy is now between \$130,000 and \$140,000.

Robert J. Creighton, San Francisco Agent of the New Zealand Government, is in Washington in the interest of the trans-Pacific mail service to Honolulu and the Australian colonies.

Pilot J. H. Rogers is dead. He was once a resident of Honolulu.

Advices by the steamer Belgic state that Kyle Belles, the actor, and Mrs. James Brown Potter were married at Hongkong about a month ago. The story is not believed in New York.

Managi, the Samoan chief visiting this country, died at Cheyenne, Wyo., on the train while bound to San Francisco. The Monowai has two Samoans aboard, the survivors of nine who came to this country after the wrecks of the Vandalla, Trenton and Nipic. The others died from consumption and hemorrhage.

Preparations are being made for the next Mechanics' Fair to be held in September.

The report of the New City Hall Commission, just filed, shows that up to date nearly \$4,500,000 has been spent on construction.

William Forsyth has been beaten for Director of the Department of Viticulture and Horticulture of the World's Fair. It is thought that J. De La Harz Sharb will be appointed.

Frank W. Quick, who arrived from Australia on the Monowai, is missing. He has been traced as far as Chicago, but then all signs of him have been lost.

The French residents of San Francisco celebrated the 14th of July, the anniversary of the Fall of the Bastille, with appropriate ceremonies.

L. S. Rosenberg, a book-keeper for S. Rashland and Co., the wool men, has blown out his brains. The cause is a discrepancy of a few hundred dollars in his accounts.

The law making a state appropriation of \$300,000 for the display at the World's Fair is to be tested for its validity. The State Controller refuses to audit any claims until this is done.

The Produce Exchange has just had an exciting annual election. The question at issue was whether to build a new structure where the Merchant's Exchange is, or not. The progressionists carried the day.

The methods of the last Legislature have received a thorough airing in a suit now on trial in the Superior Court, brought by George Taylor to get a division of the spoils. Many members are shown to have taken bribes.

James McCudden, the Mare Island Navy Yard coal contractor and politician, has been exonerated from the indictments against him by the United States Attorney. The swindling of the contractor was shown up by the Examiner, but politics forbade prosecution.

American News.

A tornado swept over northern Minnesota on the 16th, and five men were killed.

Italy has announced that she will not officially take part in the World's Fair of 1893, though Italian exhibitions will be given every encouragement.

Blaine has gone to Bar Harbor, Me. He is described as a very sick man, and says himself that he is suffering from nervousness, though the New York papers have it that Bright's disease ails him. He expects to return soon to Washington.

J. S. Campbell, the present Governor of Ohio, has been re-nominated by the Democrats to run against William McKinley, Jr. The campaign is now fairly on.

The physicians who witnessed the electrocution of Smiler, Sloum, Wood and Jigro have filed a certificate stating that the men were rendered unconscious the moment the current was turned on and that in each case death was manifestly painless.

Samuel J. Dixon, a Toronto photographer, has emulated Blondin and has crossed the Niagara gorge below the falls over a tight rope. He proposes to give exhibitions this summer.

A monument to Stonewall Jackson was unveiled at Lexington, Va., on the 21st inst.

Dispatches from New York indicate that Venezuela may not ratify Blaine's reciprocity treaty.

George Francis Train has made a new trip around the world in sixty-one days. He started from Seattle.

The President of Hayti has issued a formal protest against the occupation of Mole St. Nicholas by the United States Government. He thinks it is a step toward annexation, and charges Blaine with entertaining plans of annexation.

The town of Boulder Creek, Cal., has been burned out. Loss, \$500,000, partially insured.

John H. Steinberger, who is connected with the Nevada Bank, of California, has been sued, by Chicago parties, for \$2,500,000, on a dispute over some mining properties in Mexico.

A Chinese leper has been found in a New York wash-house, and there is the usual outbreak in the New York papers in consequence.

A story of cannibalism comes from Minnesota. It is that a Swedish woman and her eldest daughter, who settled in the Snake River County, north of Pine City, were so driven by hunger that they ate the bodies of three younger children to keep alive all winter.

Several fishing smacks have been seized in Canadian waters, and the usual summer wrangle between Great Britain and the United States, over the fisheries question, is on.

U. J. Glave, once of the Stanley party in Central Africa, and Jack Dalton have left Seattle, to explore the central portion of Alaska.

A tribe of Central African dwarfs is to be exhibited at the Chicago Fair. The agent at Zanzibar announces that he can get the pygmies.

Work on the Grant Memorial has begun at Riverside, N. Y.

Further tests of the new American armor plate, of nickel and steel, have been made at the Annapolis (Md.) proving grounds. The tests were very successful.

Immense asbestos deposits have been discovered at Medford, Or.

Bob Ingersoll has been interviewed on politics. He thinks that McKinley is the coming man and that if he carries Ohio this fall in the gubernatorial fight nothing can prevent his nomination in 1892.

The Fish Commission of the United States has published a report on the pearl fisheries of the Gulf of California. The industry gives employment to 500 men.

The census office has issued a bulletin on the gold and silver production of the country in the calendar year 1889. It is placed at 1,590,869 ounces of gold, coining value \$32,866,244, and 51,354,851 ounces of silver, coining value \$68,396,988. This is 28 per cent. of the world's gold product and 41 per cent. of the silver product.

Dispatches from New York state that private letters have been received there to the effect that Mrs. Langtry has been disgraced for life. She was knocked down and kicked in the face by Abingdon Baird, the Englishman who supplanted Freddy Gebhardt in her favor. Gebhardt has ordered all her stock from his ranch in Lake County, Cal.

E. R. Green, the son of the famous woman millionaire Hetty Green, of Chicago, intends to publish a triple city daily, using the Chicago Times as a basis on which to build. It will have a page of New York news and a page of Boston news telegraphed verbatim from news papers of each place.

Foreign News.

Report comes from Hayti that Hippolyte's rule is becoming more despotic and bloody. The one who do not support his administration or who are suspected of being unfriendly, are shot, without the formality of a trial. It is said that a strong feeling of rebellion is growing and that preparations are being made to depose the black despot. Legitimate, will doubtless be the leader of the new war party. The people are getting tired of being shot down like dogs and providing material to procure vessels and munitions of war.

Lord Salisbury has startled the conservative people of England by declaring that female suffrage ought to form a part of the coming electoral reform.

England is making preparations for a big display at the World's Fair in Chicago. The Prince of Wales is taking an active interest in the matter and will give his advice to the World's Fair Commissioners. The Governments of Ecuador and San Salvador have announced their intention to be represented at the great exposition.

Reports of harvest conditions from all parts of the world show that famine exists in Russia and India, that there is a serious drought in Bengal and a splendid crop in America. In Russia the peasants are starving and there is small hope of relief except from the Government.

A Berlin dispatch says that Bismarck

is failing fast. It is said that he is liable to die of heart disease at any moment.

Great destitution among the lower classes of Germany is reported.

Emperor William sailed from London on July 14th, on his way to Norway. He was greatly pleased at the warm welcome and general good treatment accorded him by the English people.

Balfour has announced in the House of Commons that a local government bill for Ireland, based on the same line as the English and Scotch acts, will be introduced in Parliament next session. It is therefore possible that the long-hoped for Home Rule will be finally gained.

It is rumored that the Wellington coal mines near Nainaimo, B. C., owned by the Dunsmuir, have been sold to the Union Steamship Co., which owns the steamers Monowai, Nanki Poo, Grandholm, Talcott and others.

The first direct shipment of grain from Duluth, Minnesota, to London arrived on June 21st. It was carried on an inland built steamer and consisted of 95,000 bushels. The steamer went down the lakes, through the Weiland canal, down the St. Lawrence river and into the Atlantic. This experiment insures direct communication between the lake ports and Europe.

The English House of Commons has voted \$300,000 for the relief of the suffering poor of Ireland.

A bonanza gold field has been discovered at Nicaragua. Gold nuggets weighing from six to thirty-eight ounces twenty-two carats fine are said to have been found. The mines are placers.

A dispatch from Victoria says that the appearance of the U. S. man-of-war Thetis in the Behring sea caused a stampede of the seal poachers. They were notified that if they were found within the forbidden ground they would be seized and sent south in charge of government officers. It is said the entire fleet of poachers has sailed for home.

President Tonseca of Brazil is said to be about to resign on account of ill health. His resignation is opposed by the Brazilian people who admire him greatly. He was one of the founders of the new republic.

It is said that Arabi Pasha, the banished Egyptian, is failing very fast. An effort is being made to secure the privilege of his return home to spend the remainder of his days.

KAU NOTES.

A very pleasant party was given last Saturday night, by the residents of Waiohiau and vicinity, in honor of Dr. G. Foote, for the past two years Government physician for this district, who leaves for your city on the 30th inst., with the intention of assuming the practice of Dr. John Brodie. The skating rink, in which the party was given, was tastefully decorated with wreaths and flowers; the music was furnished by local talent, and dancing was indulged in up to a late hour. Refreshments were served during the evening, and the satisfied expression on the countenances of all present was a guarantee of its success. The many friends of Dr. Foote deeply regret his departure, as their relations with him have always been of the pleasantest, and they have taken this opportunity of bearing witness to their high appreciation of him as a man and as an officer of the Government.

The residents of Kau hope that the Board of Health may send us without delay a successor equally as worthy, faithful and efficient. Both Kau and Kona are now without a physician.

The weather throughout the district is unusually dry, even for Kau. High winds prevail and live stock are dying off for want of feed and water.

Judging from the illumination to be seen every night the Volcano continues to be in a high state of activity. A gentleman who has been at the crater for a month past says that the lava lake is steadily filling up, and is now double the size it was a month ago.

IS IT MURDER?

A Sailor Shot on Board the Iwalani Off Maui.

A Hawaiian sailor named Kakalia, on board the Iwalani was shot while passing Olawala, Maui, Thursday evening about 5 o'clock. The steamer was about 500 yards from shore when some one on shore fired the shot, striking the man about the stomach, the ball passing through the body. Three men were seen at the landing, but at that distance could not be recognized. The steamer put back to Lahaina, but the man died before reaching the place. A coroner's inquest was held, the jury returning a verdict of death from a shot fired by some unknown person. Orders were given to the police authorities to search for the three men, one of whom is supposed to have fired the shot. The body was brought to town Friday forenoon for burial.

A New Engine.

The Union Iron Works in this city has just completed a steam engine for the mill at Ewa which is worth a visit. This is the first Corliss engine constructed on these Islands, and it was on view at the Union Works last Saturday, prior to shipment to its destination at Ewa. The engine is beautifully finished, and does credit to the hands and heads that constructed it.

Arrival of U. S. S. Monowai.

Arrived at Honolulu, July 31st, 6 A. M., from San Francisco, for Sydney. Sailed on July 24th, at 4 P. M., and landed pilot at 5 P. M. Experienced fine weather with light easterly winds to arrival. The Monowai resumed her voyage at 3:45 P. M., July 31st.

ON MAUI.

Her Majesty Received at Hana, Kahului, etc.

Her Majesty Queen Liliuokalani and party arrived at Kahului, Maui, Wednesday morning, July 29th, and breakfasted with the American Consular Agent at that place. The party then went to Hana, arriving at 4 o'clock P. M., where a reception was held at the residence of Mr. D. Center, manager of the Hana Plantation.

Thursday, in spite of the rains, a luau was partaken of and speeches were made by members of the party, the same order being repeated Friday. They left Hana, Friday, for Kahului.

Saturday morning the Royal party went by a special train to Spreckelsville, where another big feast was the order of the day, with more dancing. A right royal reception was given at all places visited, the Hawaiian Band always adding to the enjoyment by its playing.

On the homeward voyage Honolulu was reached early Sunday morning. Upon the steamer's arrival the Royal Salute was fired from the shore battery.

Tuesday (to-day) Her Majesty will leave for Waimanalo, to be the guest of Hon. John A. Cummins, after which a tour of Oahu will be made, the band accompanying the party.
